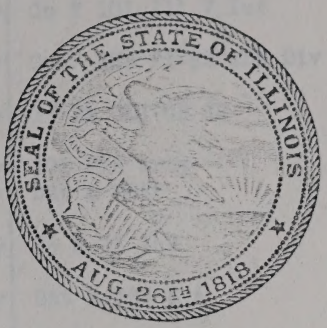
HONOR ROLL

MORGAN COUNTY

STATE of ILLINOIS

WILLIAM G. STRATTON
Governor



ILLINOIS VETERANS' COMMISSION

WILLARD A. MANNING
Administrator

RALPH B. JOHNSON
Assistant Administrator

JAMES P. RINGLEY
Chairman

JOHN S. GLEASON, Jr.

WILLIAM M. P. SMI

NOTE: WAVERLY EAST LISTED AS EAST WAVERLY

Through legislation passed by the 68th General Assembly, the Illinois Veterans' Commis was charged with the responsibility of compiling, publishing, and distributing an up-to-d Honor Roll. This Honor Roll includes the names, burial places, and other related informa concerning all members of the Armed Forces of the United States buried in the State of Illi The intent of this legislation was to provide a record to assist in honoring our dead.

This booklet contains the names of those veterans buried in this county prior to July 1, 19 The burials are listed by cemetery and are as correct as possible. In some instances it has b impossible to locate graves and available records have not always supplied needed informat

The Illinois Veterans' Commission wishes to acknowledge the contribution made by the in vidual members of the various veteran organizations in obtaining the data contained in publication.

HONOR ROLL

MORGAN COUNTY IL

STATE of ILLINOIS

WILLIAM G. STRATTON
Governor

ILLINOIS VETERANS' COMMISSION

WILLARD A. MANNING
Administrator

RALPH B. JOHNSON
Assistant Administrator

JAMES P. RINGLEY
Chairman

JOHN S. GLEASON, Jr.

WILLIAM M. P. SMITH

Through legislation passed by the 68th General Assembly, the Illinois Veterans' Commission was charged with the responsibility of compiling, publishing, and distributing an up-to-date Honor Roll. This Honor Roll includes the names, burial places, and other related information concerning all members of the Armed Forces of the United States buried in the State of Illinois. The intent of this legislation was to provide a record to assist in honoring our dead.

This booklet contains the names of those veterans buried in this county prior to July 1, 1955. The burials are listed by cemetery and are as correct as possible. In some instances it has been impossible to locate graves and available records have not always supplied needed information.

The Illinois Veterans' Commission wishes to acknowledge the contribution made by the individual members of the various veteran organizations in obtaining the data contained in this publication.

OCTOBER 1, 1956

BY AUTHORITY OF THE STATE OF ILLINOIS

CATEGORIES OF INFORMATION:

Name of Veteran - War - Rank - Unit or Organization - Date of Death.

Rest of data pertaining to Grave and Lot numbers, the block and Section of the Cemetery are sometimes scanty and difficult to actually locate in a cemetery without a plat map.

CODES FOR WARS VETERANS ENGAGED IN:

R....REVOLUTIONARY WAR..... 1775-1783

1812....WAR OF 1812..... 1812-1815

I....INDIAN WARS..... 1816-1860

B....BLACKHAWK WAR..... 1832

M....MEXICAN WAR..... 1846-1848

C....CIVIL WAR..... 1861-1864

S....SPANISH AMERICAN WAR.... 1898

W-1....WORLD WAR I..... 1917-1918

W-2....WORLD WAR II..... 1941-1945

K....KOREAN WAR..... 1950-1953

Let it be noted here that birth certificates would not be available for veterans until 1878 in Illinois.

However if a veteran was still alive until the 1940's, he/she could file a delayed Birth Certificate for Social Security purposes, which might be in those files, or office of local County Clerk.

In a lot of cases the death certificate gives the veteran's Social Security Number. A family historian can then take the death certificate and other proofs of relationship to the Social Security office near them to secure any records in their particular veteran's records.

Also now Social Security information is on internet records.

ENID EMERSON of Waynesville MO sent an article to us and said "DO YOU BELIEVE IT, especially about detecting a male or female????" The following was extracted from the Quarterly Newsletter Vol. 10 #2 May 1994, Genealogical Society, Pulaski County MO. HOW TO FIND A GRAVE SITE.

..."Don Page was visiting friends in Benton IL and Evan Pickard showed him a method to "witch" for grave sites. He uses bronze welding rods about 30 inches long with about 4-inch bend at 90 degrees at one end. He then holds them in wooden spools straight out parallel to the ground about 6-8 inches apart. The rods do different things when passing over a grave site. They cross when you walk over the grave, and uncross when you pass on the other side. Using one rod, it will swing to the right for a male, left for a female."

Yes Enid, there is such a thing as "witching" for burial sites. We have a man who is successful at it. I will ask him to try the male-female angle!

ENID EMERSON of Waynesville MO sent an article to us and said "DO YOU BELIEVE IT, especially about detecting a male or female????" The following was extracted from the Quarterly Newsletter Vol. 10 #2 May 1994, Genealogical Society, Pulaski County MO. HOW TO FIND A GRAVE SITE.

..."Don Page was visiting friends in Benton IL and Evan Pickard showed him a method to "witch" for grave sites. He uses bronze welding rods about 30 inches long with about 4-inch bend at 90 degrees at one end. He then holds them in wooden spools straight out parallel to the ground about 6-8 inches apart. The rods do different things when passing over a grave site. They cross when you walk over the grave, and uncross when you pass on the other side. Using one rod, it will swing to the right for a male, left for a female."

Yes Enid, there is such a thing as "witching" for burial sites. We have a man who is successful at it. I will ask him to try the male-female angle!

* Townships are NORTH of BASE LINE. *Ranges are WEST of Third Principal Meridian

While this completes our present listing for Morgan County cemeteries, there are undoubtedly many unknowns as yet located in remote areas where hunters and mushroom gatherers go. Would our readers please advise of any they know about. Better yet, please send us any readings they have made on any cemetery so that we can compare it with our accumulations and make any additions or corrections as necessary.

However, please use standard 8½x11 inch paper, and only one cemetery per page, even if only a few names. Leave at least 1 inch margin at the left side for addition to our notebooks. This will facilitate our filing it with the cemetery to which it belongs, to be in the proper alphabetical sequence.

Following are the page numbers of our Atlasses and Plat Maps to fit the township numbers on the Morgan County map included herewith.

Twp#	TOWNSHIP NAME	TN RW	1872	1894	1914	1974	1988

By making use of several plat maps of different years one can find cemetery school and church markings in order to locate land owners and thus track Grantee and Grantor deed transactions.

Probate records for deceased land owners may provide clues for land ownership deeds by surviving heirs.

Cemetery listings and transcriptions are our only barriers between family history researchers and the wanton destructions of our cemetery remainders by time, the elements, and human inconsiderations.

If one probes with a rod or pitchfork for buried stones, please read it and replace under the sod for its protection. You have the record. If the stone is left out in the weather it will soon be lost and broken by rain and freezing.

If some stones are difficult to read because of type of stone, weathering or placement of sun, use field glasses. Standing away from the stone some distance and in different positions, one can see the engraving much better than when close to the monument.

If you are going to reset any stones, - while it may be against common practice - having the engraving on the east side of the monument preserves the reading far better because most of our weather-beating comes from the west. Instead of having the base absolutely flat, tilting it to some degree prevents water from standing on it and freezing to crack the bonding which holds the stone to base.

If you are out in the cemetery to transcribe engravings, wear gloves to protect your hands from any poisons that may have accumulated from previous weed killers. Picking dirt up and rubbing it into the lettering may help you read it to better advantage. On dark stones spray shaving cream and wipe across it with an old windshield wiper blade, or some like instrument as a large butcher knife.
